Salute to engineered art, Twilight Tetris, and interactive things

A few highlights from our campus community's extensive involvement in Beakerhead 2015

September 25, 2015

The 2015 edition of **Beakerhead** included a heavy injection of energy and creativity from the University of Calgary, from **almost every corner of the campus**. More than a dozen of the 62 programs during Beakerhead — a celebration at the crossroads of art, science and engineering — involved university students, faculty, staff, and alumni on campus and in the community. Here are some of the highlights, in photos, of the university's involvement.

Beakerhead 2015

People line up to view the stars through a telescope while attending an open house at the Rothney Observatory in Calgary. The unique Beakerhead evening included talks by John MacDonald, author of Arctic Sky: Inuit Astronomy, Star Lore and Legend, and Eric Donovan, professor, studying auroras.
